# Empanada Emporium v1.0.0

5/11/23

Welcome to the official release notes for Empanada Emporium v1.0.0! We are excited to introduce our website, which serves as a gateway to a wonderful culinary experience.

Responsive Design:

Our website provides a fully responsive experience, meaning whether you have a computer or an iPad you can order empanadas. With the design it scales to the user's screen and allows the user with ease to maneuver the website. With this we want to allow the user the best possible experience whether they have a specific device or not.
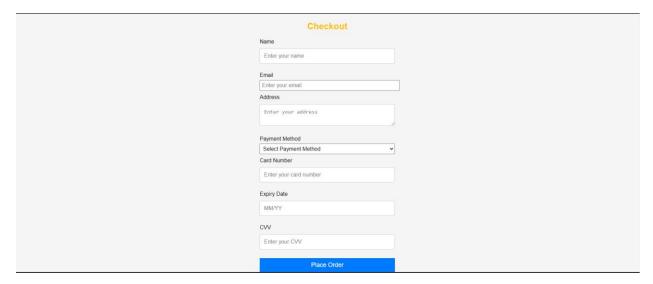

Menu:

With this release, we have reimagined the way in which you interact with our menu. See an enticing selection of different hand-crafted empanadas, each carefully made with high-quality ingredients and exploding with flavor. Our menu is now showcased, with beautiful images of our empanadas, and captivating descriptions that will have your mouth watering. Finally, when you have made your decision, you may add your empanada to your order by clicking the plus button. If you change your mind, you may also press the minus button to remove it from your order!

Checkout:

With our website release, we wanted to make sure that the checkout process was made as easy for you as possible. Checking out has never been quicker! Just plug in your information and bam at a click of a button empanadas can be at your door within minutes.

Enjoy exploring Empanada Emporium v1.0.0!

Thank you!

The Empanada Emporium Team
